
You can go from room to room and hush the alarms by short press till you find the originating alarm (the one that flash), then check the cause of alarm
All the others devices will be silenced too.

If you hush an alarm other than the source of the alarm, the remaining alarms will still sound.

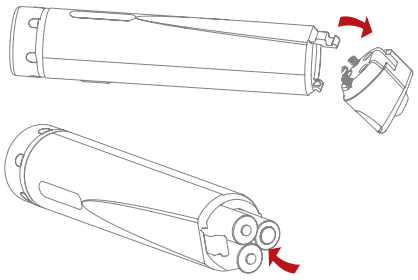
Flashlight:
The flashlight can be activated by pressing the side button. By pressing again you turn off the light.

Please note: The light will go out automatically after 5 minutes.

Low battery signal:
When the battery is starting its end of life, a short beep will sound out every 48 seconds for 30 days.
Only the device affected by the low battery will beep, no other connected devices will sound.
It is safe to change batteries in the Smart Remote without going through the learn process again – it will not forget the codes during the battery change process.

Batteries replacement:
You can access the 3 x AAA batteries by removing the end cap.
Replace the batteries respecting polarities. Always test the Smart Remote after battery replacement.

Caution: There is a risk of explosion if the batteries are replaced by an incorrect type.
Dispose of used batteries according to local environmental regulations.



Maintenance & troubleshooting:
If the Smart Remote does not work when the test/hush button is pushed, the probable cause is faulty batteries which must be replaced. Please refer to troubleshooting at www.cavius.com.

How the Smart Remote is behaving:
When the remote is:

- Receiving a signal from an alarm: vibrating, sounding and LED is flashing
- Waiting to send a hush signal during the first 30 seconds of an alarm: LED is flashing
- Sending a hush signal: quick vibration, sounding and LED is flashing - for 13 seconds.
- Receiving a test signal: quick vibration and LED is flashin
